- 2 **FIRST WORD**
- 63 **CONTRACTORS CORNER**
- 68 **AD INDEX**

8 **PANEL POINTS**

Siva Power plans to build a thin-film factory in the U.S.

10 **INVERTER INSIDER**

Contractors now expect smart meters to be embedded in inverters.

14 **MOUNTING**

It's important to understand how a commercial roof is built.

SPECIAL FEATURES:

64 **RISKY BUSINESS:**

The solar industry might be thriving, but Travelers Insurance reminds us to assess the potential risks involved with installations. Safety first!

66 **TIPS FOR MIGRATING PORTFOLIOS:**

Ahana Renewables provides a case study on its decision to migrate its portfolio to a single monitoring platform. The company saved 1,000-work-hours after the switch.

CONGRATULATIONS LEADERSHIP WINNERS!
